IMPAC Infrared Temperature Sensors

Stationary, digital ratio pyrometer with built-in video camera system and infrared filter for non-contact temperature measurement and display of thermal images in ranges between 700 and 1800 °C

**ISR 6-TI Advanced**

• Combination of pyrometry and thermal imaging in a single solution

• Built-in video camera with short wavelength infrared filter

• Auto calibration of thermal image relative to accurate pyrometer temperature reading

• Definition and evaluation of ROIs (Regions of Interest) in the thermal image

• Inclusive video cable and Video-to-USB grabber for use with InfraWin software

• “Dirty Window” Warning

• Very fast 2 ms response time for highly dynamic processes

• Robust, stainless steel sensor for harsh environments (IP65)

The ISR 6-TI Advanced infrared thermometer combines accurate (2-color) pyrometry and thermal imaging in one non-contact temperature measurement system. It accurately measures the temperature of the center spot and uses an infrared filter to show an auto-calibrated thermal image based on the accurate (and to a large extent emissivity independent) ratio pyrometer temperature reading.

The system is based on the high quality 2-color (ratio) pyrometer ISR 6 Advanced in combination with a video camera with a short wavelength infrared filter.

The analog video output signal is converted to USB (using an external video-to-USB grabber) and fed into a PC using the standard pyrometer software InfraWin. InfraWin generates and shows a pseudo-color image from this signal relative to the accurate temperature reading of the central measuring spot (measured by the ratio pyrometer).

The integrated ROI functionality provides the option of defining and evaluating special Regions Of Interest (ROI) within the thermal image. In combination with an optional I/O module, external switching contacts can be triggered based on the temperature data of one or several ROIs.

The response time of only 2 ms facilitates the measurement of fast processes. The ISR 6-TI Advanced is also equipped with all ISR 6 Advanced standard features such as a built-in “dirty window” warning.

The ISR 6-TI Advanced provides valuable measuring data for all applications where not only an accurate temperature reading in one spot is required but also a display of the temperature distribution (around and relative to that spot) is of interest.

**Typical applications:**

• Metal Industry - e.g. melting processes, melting furnaces, vacuum furnaces, coating processes, welding processes, induction heating processes, and sintering processes

• Glass Industry - e.g. glass gob

• Semiconductor Industry - e.g. sapphire growth

• Other Industry - e.g. waste combustion
**Technical Data**

### Measurement Specifications

### Optical Specifications

- Sighting: Thermal image with marked pyrometer spot
- Optics: Manually focusable from rear cover measuring distance \( a = 210 \) to \( 5000 \) mm
- Distance Ratio: Approx. 190 : 1

### Environmental Specifications

- Protection Class: IP 65 IEC 60529 (value in mated condition)
- Operating Position: Any
- Ambient Temperature: 0 to 60 °C at housing
- Storage Temperature: -20 to 80 °C
- Relative Humidity: Non condensating conditions
- Weight: 0.755 kg
- Housing: Stainless steel
- CE Label: According to EU directives about electromagnetical immunity

### Electrical

- Power Supply: 24 V DC ± 25%, ripple must be less than 50 mV. If instrument is used in combination with an I/O module, a power supply with min. 1 A is required.
- Power Consumption: Approximately 8.5 W
- Load (analog output): 0 to 500 Ω
- Isolation: Power supply, analog output, digital interface, and video signal are electrically isolated from each other

**Note:** MB is a shortcut used for temperature range (in German: Messbereich)

**Note:** The determination of the technical data of this pyrometer is carried out in accordance with VDI/VDE IEC TS 62942-2, the calibration / adjustment in accordance with VDI/VDE 3511, Part 4.4. See http://info.lumasenseinc.com/calibration for more information.

### Interface

<tr>
<td>Response Time ( t₉₀ ):</td>
<td>&lt;2 ms (with dynamic adaption at low signal levels); adjustable to min; 0.01 s; 0.05 s; 0.25 s; 1 s; 3 s; 10 s</td>
</tr>
<tr>
<td>Maximum Value Storage:</td>
<td>Built-in single or double storage. Clearing with adjusted time ( t_{max} ); ( \text{off; } 0.01 ) s; ( 0.05 ) s; ( 0.25 ) s; ( 1 ) s; ( 3 ) s; ( 10 ) s; ( \text{via interface, automatically with the next measuring object, external contact, hold-function} )</td>
</tr>
</tbody>
</table>

### Thermal Imaging Feature*

- Relative temperature span in one image (depends on temperature): 100...200 °C distributed around the spot temperature (for one dynamic range). Possible combination of multiple ranges can be used so complete temperature range of pyrometer can be displayed.
- Pixels: 768 x 576
- Frequency (fps): Up to 25 Hz
- Signal: Analog Video (PAL), USB (video grabber)
- Field of view: 6.0° x 4.5° (e.g. 105 mm x 78 mm at 1000 mm distance)
- Calibration of thermal image: Relative to central pyrometer spot

*Note: Displaying the thermal image is only possible if the pyrometer is operated in 2-color mode!
The optics can be manually adjusted at all distances between 210 mm and 5000 mm. The table shows examples of distances and the corresponding spot diameters.

<table>
<thead>
<tr>
<th>distance a [mm]</th>

</tbody>
</table>

Effective aperture D for all temperature ranges:
12 mm (focused to longest distance) to 14 mm (focused to shortest distance)

### Optics

**ISR 6-TI Advanced**

700 to 1800 °C

The built-in video camera system has an infrared filter close to the wavelength range of the pyrometer. This makes it possible to display a "simple" thermal image using the standard pyrometer software InfraWin.

### Thermal Imaging Feature

- **Temperature of current cursor position:**
  - "Low" if temperature is below the dynamic range
  - "Over" if temperature is above the dynamic range

- **Coordinates and temperature of cursor position:**
  - "Low" if temperature is below the dynamic range
  - "Over" if temperature is above the dynamic range

- **Temperature in pyrometer spot**

- **Pyrometer spot (actual size)**

Scope of delivery: Pyrometer, Video Grabber, Video cable, PC adjustment and evaluation software InfraWin, works certificate, and operating instructions.

Ordering note: A connection cable is not included in scope of delivery and must be ordered separately.

Accessories

- 3 820 330 Connection cable, 5 m, straight connector*
- 3 820 500 Connection cable, 10 m, straight connector*
- 3 820 510 Connection cable, 15 m, straight connector*
- 3 820 810 Connection cable, 20 m, straight connector*
- 3 820 820 Connection cable, 25 m, straight connector*
- 3 820 520 Connection cable, 30 m, straight connector*
- 3 820 340 Connection cable, 5 m, 90° connector*
- 3 820 530 Connection cable, 10 m, 90° connector*
- 3 820 540 Connection cable, 15 m, 90° connector*
- 3 820 830 Connection cable, 20 m, 90° connector*
- 3 820 840 Connection cable, 25 m, 90° connector*
- 3 820 550 Connection cable, 30 m, 90° connector*
- 3 826 510 PI 6000: PID programmable controller, very fast, for digital IMPAC pyrometers
- 3 826 750 USB-RS485 adaptor cable, 1.8m, HS Version 4.5 Mbd
- 3 834 210 Mounting support, adjustable
- 3 835 160 Air purge unit, aluminium
- 3 835 590 90° mirror for Series 5, quartz glass window
- 3 837 230 Water cooling jacket (heavy duty) with integrated air purge unit
- 3 846 260 Mounting support
- 3 846 290 Mounting support with fused silica window
- 3 846 590 Vacuum flange KF16 with quartz glass window
- 3 852 290 Power supply NG DC for DIN rail mounting; 100 to 240 V AC ⇒ 24 V DC, 1 A
- 3 852 350 Power supply NG 2D for DIN rail mounting; 85 to 265 V AC ⇒ 24 V DC, 600 mA with 2 settable limit switches
- 3 890 640 DA 4000-N: LED digital display to be built into the switchboard
- 3 890 650 DA 4000: like the DA 4000-N, but additionally with 2 limit switches
- 3 890 570 DA 6000-N digital display, to allow adjustment of Pyrometer through RS485 interface
- 3 890 530 DA 6000: like the DA 6000-N, but with analog input and 2 limit switches for the RS485 interface.
- 3 890 630 LD24-UTP; large digital indicator, 57 mm height of digits
- 3 920 600 5 m Video Cable f. Series 6, BNC connector, adapter Cinch**
- 3 920 610 10 m Video Cable f. Series 6, BNC connector, adapter Cinch**
- 3 920 630 20 m Video Cable f. Series 6, BNC connector, adapter Cinch**
- 3 920 660 40 m Video Cable f. Series 6, BNC connector, adapter Cinch**
- 3 826 730 Video grabber with USB cable**
- 3 826 710 USB-I/O Interface with USB cable
- 3 826 770 IO 8-6: IO module with 8 Inputs, 6 Relay outputs, RS485
- 3 826 780 IA 2: Analog output module with 2 analog outputs (can only be used with 3 826 770)

*All connection cables include a short adapter cable with a 9-pin SUB-D connector. This connector may be used in combination with the RS485 to USB adapter.
**For replacement only: please note that video cable and grabber needs to be calibrated with the instrument. If a replacement video cable or grabber is ordered the instrument will have to be calibrated in the factory.

Scope of delivery:
Pyrometer, Video Grabber, Video cable, PC adjustment and evaluation software InfraWin, works certificate, and operating instructions.

Ordering note: A connection cable is not included in scope of delivery and must be ordered separately.

Types of Delivery:

- Pyrometer
- Video Grabber
- Video cable
- PC adjustment and evaluation software InfraWin
- Works certificate
- Operating instructions

Accessories:

- Connection cables (various lengths and connector types)
- Mounting supports
- Air purge units
- Water cooling jackets
- Vacuum flanges
- Power supply for DIN rail mounting
- Digital displays
- USB-RS485 adaptors
- Mounting supports with fused silica windows
- IO modules with 8 Inputs and 6 Relay outputs
- Analog output modules

*All connection cables include a short adapter cable with a 9-pin SUB-D connector. This connector may be used in combination with the RS485 to USB adapter.
**For replacement only: please note that video cable and grabber needs to be calibrated with the instrument. If a replacement video cable or grabber is ordered the instrument will have to be calibrated in the factory!
